IMPORTANT NOTES

1. High Availability support indicates Active/Active support. Active/Passive support for High Availability is limited to Solaris/SPARC platform only.
2. Option availability varies on various editions. Please check the ASE Data Sheet for more information about the differences between various editions.
3. SSL, CyberSafe Kerberos, MIT Kerberos, Native Kerberos, FGAC, PAM, etc. are features in Security and Directory Services and are not sold separately.
4. Features listed are available for ASE Enterprise Edition, Small Business Edition, Express Edition and Developer Edition.
5. Express Edition is available only on Linux x86, Linux x86-64 and Linux Power.
6. For a list of options available for each edition, please go to www.sybase.com/ase and find "Compare ASE Editions."
